Re: Notice of Intention to Revise/Amend Large Mining Operations, Uintah County Asphalt Mine, M/047/022, Uintah County, Utah

Dear Mr. Hogan:

On June 10, 1996, the Division received the submission to revise or amend the large mining operations notice of intention for the Uintah County Asphalt Mine. Due to a backlog of other permitting applications and the necessity of conducting site inspections during the field season, we have not yet completed a review of this proposal. We anticipate completing our review within the next thirty days. Please contact me or my supervisor, Wayne Hedberg (801-538-5286) at our office if this additional delay will cause an undue hardship for your operations.

At one time Mr. Thomas Bachtell had contacted our office regarding the possible removal of overburden materials consisting of gravels. We requested additional information describing this proposal, but have not received any such information. Please inform us of the status of this particular proposal if you, or Mr. Bachtell, intend to pursue this matter further.

Thank you for your cooperation and patience.

Sincerely,

Anthony A. Gallegos  
Senior Reclamation Specialist
